

Distribution of DISD Students in Grades 9 - 12 By High School Service Area

Over 35,000 DISD students are enrolled in grades 9 through 12. Skyline enrolls 13% of these students followed by Molina and Adams with 7% each.

Specialized high schools (i.e. School for the Talented & Gifted, School of Health Profession, etc.) are not included in the above since the entire district is considered the service area. Such schools enrolled an estimated 2,500 additional students.
