

Pledges to:

1. To use electricity that is generated from 100% renewable resources in all their operations. This can be done by:

- Generating electricity on-site using renewable resources (solar, wind, hydropower, geothermal)
- Generating electricity off-site using renewable resources (solar, wind, hydropower, geothermal)
- Participating in a renewable energy aggregation with other organizations
- Purchasing renewable electricity from a retail electric provider
- Purchasing renewable energy credits (RECS)
- Some combination of the above

2. Promote the benefits of the use of 100% renewable energy to their students and employees through awareness campaigns during Earth month (April).
