

BUSINESS

GUIDED PATHWAY: MANAGEMENT

For more information, visit www.dcccd.edu/management your academic advisor at your college.

This is an example course sequence for students interested in pursuing Management. It does not represent a contract, nor does it guarantee course availability. Following this pathway will help you earn an Associate of Applied Science (AAS) degree in Management². For official degree requirements, [click here](#).

The AAS degree in Management is a flexible offering of business courses designed to accommodate the specific needs of currently employed students. You will learn practical management skills in the areas of goal setting, leadership, problem solving, human resources, and team building. These are skills required of successful employees, not just managers. By acquiring and applying knowledge in this field, you enhance your visibility and marketability on the job while demonstrating the capability of accepting new challenges. Courses that complete the Degree (D) and courses that complete the Management (MC) and Supervision (SC) Certificates are noted below.

Visit www.ntxccc.org/pathways to view guided pathways created for students who complete an AAS degree and the options for transfer to complete a Bachelor of Applied Arts and Science. Speak with an academic advisor at your college to choose courses that will help you to transfer to a specific university.
